

Remarks

Originally, claims 1-39 were pending in the subject application. Due to a first Restriction Requirement (now "vacated") dated January 21, 2003, the applicants cancelled claims 8-11 and 27-37. At that time, the applicants also amended claim 1 and added new claims 40-45. The applicants have now received a second Restriction Requirement. The second Restriction Requirement is dated May 18, 2003. In response to the second Restriction Requirement, the applicants have elected Group 1 and have now cancelled claims 22-26 and 41 as being drawn to non-elected inventions. The applicants have also added new claims 46 - 60. Accordingly, claims 1-7, 12-21, 38-40 and 42-60 are now presented for examination. Favorable consideration of these claims is respectfully requested

The new claims added by this Amendment correspond to the previously cancelled claims 8-11 and 27-37. Because these claims were canceled as a result of the earlier vacated Restriction Requirement (prior to the current Restriction Requirement), it is not clear how they would have been treated under the current restriction requirement. If the examiner determines that these claims are directed to an invention that is patentably distinct from the one that has now been elected, these claims will again be canceled.

The Commissioner is hereby authorized to charge any fees under 37 CFR 1.16 or 1.17 as required by this paper to Deposit Account 19-0065.

Respectfully submitted,
